

## Case Study: Framework Design and Program Development

### Implementation support for a food production Training Program in select schools in H.P. & Chandigarh

CLIENT

#### KEY ROLE

Served as the implementation strategy partner, co-developing the rollout plan, infrastructure blueprint, and capacity-building model for a skill-based food processing program.

#### KEY HIGHLIGHTS

Designed a context-specific operational framework, recommended procurement for specialized lab equipment, and aligned training delivery with school infrastructure and student needs.
